

San Carlo Junior National School

Administration of Medication Policy

Introduction:

This policy was reviewed through a collaborative process involving staff, parents and the Board of Management in the 2023/24 school year. It will be reviewed and updated as necessary.

Rationale:

The policy as outlined was put in place to:

- Clarify areas of responsibility.
- Give clear guidance about situations where it is not appropriate to administer medicines.
- Indicate the limitations to any requirements which may be notified to teachers and school staff.

Relationship to School Ethos:

The school promotes positive home-school contacts, not only in relation to the welfare of children, but in relation to all aspects of school life. This policy is in keeping with the school ethos through the provision of a safe, secure and caring school environment and the furthering of positive home-school links.

Aims of this Policy:

The aims and objectives of the policy can be summarised as follows:

- Minimise health risks to children and staff on the school premises.
- Provide a framework within which medicines may be administered in cases of emergency or in instances where regularised administration has been agreed with parents/guardians.

In-School Procedures:

Parents are required to complete a section on Health/Medication on the application form when enrolling their child in the school. No teacher is obliged to administer medicine or drugs to a pupil and any teacher willing to do so works under the controlled guidelines outlined below.

- Prescribed medicines will only be administered after parents of the pupil concerned have written to the BoM requesting the Board to authorise a member of the teaching staff to do so. Under no circumstance will non-prescribed medicines be either stored or administered in the school. The Board will seek indemnity from parents in respect of any liability arising from the administration of medicines.
- In general, medicines will be administered by the parents/guardians outside of school hours.

- A small quantity of prescription drugs will be stored in the medicine cabinet in the Principal's office if parents have requested storage facilities. Parents are responsible for the provision of medication, ensuring it is 'in date' and notification of change of dosage.
- Teachers have a professional duty to safeguard the health and safety of pupils, both when they are authorised to be on the school premises and when they are engaged in authorised school activities elsewhere.
- The Board of Management requests parents to ensure that teachers be made aware in writing of any medical condition suffered by any child in their class.
- This does not imply a duty upon teachers personally to undertake the administration of medicines or drugs.

Long Term Health Problems

Where there are children with long-term health problems in school, proper and clearly understood arrangements for the administration of medicines must be made with the Board of Management.

This is the responsibility of the parents/guardians.

It would include measures such as self-administration, administration under parental supervision or administration by school staff.

Life Threatening Conditions

- Where children are suffering from life threatening conditions, parents/guardians must clearly outline, in writing, what should be done in a particular emergency situation, with particular reference to what may be a risk to the child. (see appendices)
- If emergency medication is necessary, arrangements must be made with the Board of Management.
- A letter of indemnity must be signed by the parents in respect of any liability that may arise regarding the administration of medication.

Guidelines for the Administration of Medicines

- The parents of the pupil with special medical needs must inform the Board of Management in writing of the condition, giving all the necessary details of the condition. The request must also contain written instruction of the procedure to be followed in administering the medication. (see appendices)
- Parents must write requesting the Board of Management to authorise the administration of the medication in school.
- In administering medication to pupils, staff members will exercise the standard of care of a reasonable and prudent parent.
- Where specific authorisation has been given by the Board of Management for the administration of medicine, the medicines must be brought to school by the parent/guardian/designated adult.
- A written record of the date and time of administration must be kept by the person administering it. (see appendices)
- Parents/Guardians are responsible for ensuring that emergency medication is supplied to the school and replenished when necessary
- Emergency medication must have exact details of how it is to be administered

- The Board of Management must inform the school's insurers accordingly of medication for life threatening conditions.
- Parents are further required to indemnify the Board of Management and members of the staff in respect of any liability that may arise regarding the administration of prescribed medicines in school and during school related activities
- All correspondence related to the above are kept in the school.

Medicines

- Where possible, the parents should arrange for the administration of prescribed medicines outside of school hours.
- Non-prescribed medicines will neither be stored nor administered to pupils in school.
- Teachers/SNAs in the school will only administer prescribed medication when arrangements have been put in place as outlined above.
- Arrangements for the storage of certain emergency medicines, which must be readily accessible at all times, must be made with the Principal.
- A teacher/SNA must not administer any medication without the specific authorisation of the Board of Management.
- No teacher/SNA can be required to administer medicine or drugs to a pupil.
- In an emergency situation, qualified medical assistance will be secured at the earliest opportunity and the parents contacted.

School Doctor: Ger O'Flaherty 01 6246028

Emergencies:

In the event of an emergency, teachers should do no more than is necessary and appropriate to relieve extreme distress or prevent further and otherwise irreparable harm. Qualified medical treatment should be secured in emergencies at the earliest opportunity.

Where no qualified medical treatment is available, and circumstances warrant immediate medical attention, designated staff members may take a child into Accident and Emergency without delay. Parents will be contacted simultaneously.

In addition, parents must ensure that teachers are made aware in writing of any medical condition which their child is suffering from. For example, children with epilepsy, diabetes etc. may have a seizure at any time and teachers must be made aware of symptoms in order to ensure that treatment may be given by appropriate persons.

Written details are required from the parents/guardians outlining the child's personal details, name of medication, prescribed dosage, whether the child is capable of self-administration and the circumstances under which the medication is to be given. Parents should also outline clearly proper procedures for children who require medication for life threatening conditions.

The school maintains an up-to-date register of contact details of all parents/guardians, including emergency numbers. Parents should inform the school of any changes as they arise.

First Aid Boxes:

A medical kit is taken when children are engaged in out of school activities such as tours.

General Recommendations:

We recommend that any child who shows signs of illness should be kept at home.

Roles and Responsibilities:

The Board of Management has overall responsibility for the implementation and monitoring of the school policy on Administration of Medication. The Principal is the day to day manager of routines contained in the policy with the assistance of all staff members.

Success Criteria:

The effectiveness of the school policy in its present form is measured by the following criteria;

- Compliance with Health and Safety legislation
- Maintaining a safe and caring environment for children
- Positive feedback from parents/teachers
- Ensuring the primary responsibility for administering remains with parents/guardians

Ratified by the Board of Management:

Chairperson B.O.M.:  _____

Date: 21/11/2023

Appendices:

1. Request to Board of Management of Scoil San Carlo J.N.S.

I/We, the parents of _____ ask the Board of Management of Scoil San Carlo J.N.S. to allow a member of staff to give medication to my child.

I/We enclose a letter from Dr. _____ stating:

- a) Why the medication is needed
- b) Name of medication
- c) Time the medication should be administered
- d) Dosage to be administered

Should there be any change in medication, I/we will write to the Board of Management before this change takes place to notify them of same.

I/We understand that the school's insurers will be notified of this arrangement.

I/We indemnify the Board from any liability that may arise from the administration of the medication.
